

Hard Floor Rejuvenator

Periodic and intensive use for all
timber surfaces*

Product Description

SelectCare+ Rejuvenator is a water-based product used to remove layers of polish on varnished and UV lacquered timber floors that may have become worn or tired over time. It also can be used as a degreaser to remove stubborn stains and marks from timber floors (excluding bamboo, oil finished, cork, laminate, hybrid and vinyl floors).

This product is a two-step process to be used in conjunction with our SelectCare+ RejuvenatorPlus to restore the floor's protective coating after it has been cleaned with SelectCare+ Rejuvenator.

For Periodic Maintenance (to be used annually or every 6 months, depending on traffic).

No dilution required with this product.

Hard Floor Rejuvenator

Periodic and intensive use for all timber surfaces*

User Instructions

(In conjunction with our SelectCare+ Dust Cleaning Pad, Spray Mop, Mop Cleaning Pad and RejuvenatorPlus):

Before Usage: Spot test prior to application, and ensure the coating is intact before proceeding cleaning with the whole area.

- Use our SelectCare+ Dust Cleaning Pad to clean the surface. Surface must be dust-free before applying Rejuvenator.
- Pour the solution into our SelectCare+ Spray Mop. Clean the floor with our SelectCare+ Spray mop and microfiber Mop Cleaning Pad. For persistent tough stains - the use of a soft scrubbing brush is recommended. Allow the solution to penetrate for 3-5 minutes and proceed to clean. **DO NOT ALLOW THE PRODUCT TO DRY.**
- After applying, the floor must be cleaned with fresh water to remove any residue.

Important: To avoid any water damage to your floors (timber, laminate, bamboo, etc), excessive water should not be used. Always use a lightly damp, 'wrung out well' mop to clean your installed floors.

Drying Time

Allow the solution to penetrate for 3-5 minutes and proceed to clean.

DO NOT ALLOW THE PRODUCT TO DRY!

Consumption

Approximately 200-400 m²/litre.

After Treatment

After applying SelectCare+ Rejuvenator, allow the surface to properly dry before applying SelectCare+ RejuvenatorPlus to the cleaned surface. This process will restore the floor's protective coating.

Special Information

After use, clean tools with warm water. Do not mix with other cleaning products.

Manufactured in Belgium. Packed in Australia for Australian Select Timbers.
