*The Now. The Future.*

### ***The Future in Hybrid Advanced***

With the use of advanced technology in its construction, Regency Hybrid Advanced allows for flexibility and optimum stability in its design, coupled with higher impact resistance for today's family busy life style.

Regency Hybrid Advanced not only displays the beauty of natural Australian timber in an engineered board, it also ensures strength with its superb hardwood multi-layer core. Constructed with 12 layers of hardwood ply core and a tongue and groove joint system, it avoids cupping, twisting & squeaking with environmental changes. Within the manufacturing process, the durability cannot be questioned.

### **With no internal expansion trims required ever\***

Regency Hybrid Advanced is very well suited to today's open plan living which has inspired the need for a seamless design throughout the home to create a cohesive look and feel.

Using superior grade timber, our Regency Range displays pure elegance with no knots or heavy features allowing for a clean, contemporary look for your entire floor.

Available in four popular Australian species, Spotted Gum, Blackbutt, Brushbox, and Sydney Blue Gum, giving your home the natural Aussie timber appeal with quality and strength has never been more respectful to our environment.

### ***Lifetime Structural Warranty***

Finished using 11 layers of Klumpp German coating, your floors will stand the test of time.

With our lifetime structural warranty, 20 year residential and 5 year commercial wear warranty, rest assured you will enjoy the stunning effect of natural Australian beauty in your home for many years to come.
